EXPERIENCE

Jio Platform Limited

Navi Mumbai, India

QA Automation Engineer

Dec 2023 – Present

- Designed and developed end-to-end test automation frameworks using Playwright, Selenium WebDriver, and Cypress with JavaScript, reducing manual sanity testing effort by 90% and accelerating release validation cycles.
- Built an automated QA and Pre-QA reporting dashboard using JavaScript to monitor release status of 9,000+ games, reducing manual reporting effort by 80% and improving cross-team visibility into weekly releases.
- Developed an automated web scraper using Python and JavaScript to collect and analyze competitor game data, reducing manual research time by 60%.
- Developed and maintained 500+ test cases, test plans, and test strategy documentation covering functional testing, regression testing, black box testing, and smoke testing across all release cycles.
- Conducted analytics-driven testing using Kibana by monitoring clickstream events, gameplay sessions, payment gateway transactions, and user behavior metrics to validate platform performance and monetization accuracy.
- Performed comprehensive REST API testing using Postman to validate backend responses, authentication flows, game listings, and platform services across Dev, QA, Staging, and Production environments.
- Performed unit testing of JioGames platform code to identify and eliminate bugs early in the development cycle, and pushed validated builds to the master branch via CI/CD pipelines using Jenkins, reducing production defects and optimizing overall code quality.
- Executed cross-platform testing across Jio STB, Smart TVs, Android, iOS, PWA, and web applications to ensure gameplay stability, UI responsiveness, and device compatibility.

SKILLS

- Test Automation:** Playwright, Selenium WebDriver, Cypress, JavaScript, Python
- API & Testing:** Postman, REST API Testing, Black Box Testing, White Box Testing, Regression Testing, Functional Testing, Sanity Testing, Smoke Testing
- Databases:** MySQL, MongoDB, Vector Database
- CI/CD & DevOps:** Jenkins, Docker, Git, Linux, Azure, AWS
- Web & Backend:** HTML, CSS, React.js, Node.js, Express.js, Django

EDUCATION

Lakshmi Narain College of Technology

Bhopal, Madhya Pradesh

Bachelor of Technology (B.Tech) – Information Technology

Aug 2019 – June 2023

- CGPA: 8.5 / 10.0

PROJECTS

QA Automation Assistant (Link)

- Built an AI-powered QA Automation Assistant using Node.js, Express.js, and Google Gemini REST API to answer Manual Testing, Selenium WebDriver, Playwright, Cypress, and API Testing interview questions, with secure environment variable management and cloud deployment on Render.
- Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, Google Gemini API, Git, Render

CERTIFICATIONS & COURSEWORK

- Generative AI – Coursera (Link) DevOps Mastery – Coursera (Link) AWS Fundamentals – Coursera (Link)

OTHER ACTIVITIES

- Attended Waves 2025 at Jio World Centre, Mumbai, gaining insights into AI, VR, Gaming, Automation, and emerging digital platforms.
